

Statement about the Modifications to the Southwell Neighbourhood Plan

Southwell Town Council believe that the modifications to our Neighbourhood Plan, Regulation 16 Consultation Version, are not so significant so as to change the nature of the Plan from the original 2016 Adopted version of the Plan.

In making this statement we have the assessment of Intelligent Plans and Examinations Ltd, who undertook a health check on the Regulation 14 Consultation version. In this they stated that they considered that our assessment then was reasonable. Since then we have substantially reduced the amount of land allocated as Local Green Space or Main Open Area following representations from others.
